

Overview of Safe Guide Process

Great programming and safe girls are a matter of self-responsibility with Guiders. Using the Safe Guide, at all levels (green, yellow, or red) and every time you plan an activity, will assist in the risk management.

PLAN FIRST:

Start by using the **Introduction** section (pg 6) to identify which activities are not allowed or are allowed only with additional conditions. Referencing the **Key Terms** (page 10) will help with many aspects of planning. All activities start with the **General Planning for Activities** section (page 16) as well as the **Activity Planning Chart** (pg 18 of Safe Guide or page 2 of the SG3) to assist with determining the level of the activity. The **Activity Guides** section (starting on page 53) has mandatory activity specific procedures, best practices and some checklists that can assist with the overall planning.

COMPLETE SAFE GUIDE FORMS:

Green Level Activities:

- For events away from regular meeting place, notify Parents/Guardians and your District Commissioner of the activity by email/newsletter or the **Activity Planning Form - SG.1**. Always use the SG.1 to provide volunteer drivers information about auto insurance and their personal liability (see [Guidelines for Roadside Emergencies](#) in Memberzone for more information)
- An **Emergency Response Plan – SG.4** is required for all activities including your unit meetings, and should include the schedule of activities and participant list. Write it so that you can hand to anyone in an emergency and they can follow the plan.
In BC, the **Provincial Emergency Contact for GGC** is **1-888-884-2711**.
- No assessment is required for Green level activities.
- Document retention of all Safe Guide paperwork for Green level activities should be completed at least twice per year (eg. December & June).
