YELLOW CRAFTS AND ACTIVITIES

1. Ducks

1a. Rubber Duck Challenges

Buy or accumulate a pile of rubber ducks and play some games with them.

Have the girls draw cards to try different challenges using the rubber ducks.

| | |
|---|---|
| Crab walk with the duck balanced on your tummy. | Throw your duck up in the air, then kneel down and try to catch it. |
| Balance your duck on your back and crawl on your hands and knees. | Throw the duck up and backwards over your head and try to catch it behind your back. |
| Take 20 big steps with the duck balanced on your head. | Throw and catch your duck with just your right hand, then with just your left. |
| Take 20 big steps with the duck balanced on your shoulder. | Throw the duck back and forth, from side to side, to yourself. |
| On your hands and knees, push your duck with your nose. | Put the duck on your head. Now sit down then stand up again without dropping the duck. |
| Do 10 push-ups with your duck balanced on your back. | Balance the duck on your foot. Swing your foot back and forth 10 times. Now try the other foot. |

| | |
|---|--|
| <p>Hold your duck between your knees and hop around in a large circle.</p> | <p>Balance the duck on your right foot, then throw it up and catch it from there. Can you do it with your left foot, too?</p> |
| <p>Pass your duck to a friend without using your hands, then pass it back again.</p> | <p>Hold your duck far out from your body. Touch your opposite foot to the duck without bending your arm. Switch arms and try it again.</p> |
| <p>Throw your duck to a friend – how many times can you throw it back and forth without dropping it? Move farther away from each other for each throw.</p> | <p>Throw the duck up, jump, and try to catch it. Jump twice. Jump three times!</p> |
| <p>Throw the duck in the air and clap your hands under your right leg before catching it. Now try with your left leg. Now clap behind your back.</p> | <p>With the duck on the ground, see how high you can jump over it (forward, backward and sideways.)</p> |
| <p>Throw your duck in the air, clap your hands, and then catch it. Repeat with two, three and more claps. How many claps can you do and still catch the duck?</p> | <p>Can you pick the duck off the ground without using your hands? (no teeth)</p> |

1b. Rubber Duck Hunts

1. Hide one or more rubber ducks throughout your meeting space and have the girls quietly find them without retrieving them. When they have found the duck(s), they then come and sit quietly at a central location until all the girls are sitting. Then discuss: How many ducks did they spot? Where were they hiding?
2. Hide the ducks over a large playing field and have the girls search for them.
3. Blindfold the girls and have them search for the ducks in piles of hay or baskets of Ping-Pong balls.

1c. Rubber Duck Fishing

“Fish” for the ducks behind a screen: use a line with a magnet attached at one end and place a screw or other metal object into the ducks. If the ducks are labeled with numbers, the girls could then do an associated “Duck Challenge” when they have caught one.

1d. Rubber Duck Races

1. Have the girls do relay races carrying ducks on their heads or between their knees or on the top of their feet.
2. If you have access to a creek or stream, label the ducks with a permanent marker, then have a duck race down the creek. Make sure to catch all the ducks at the end!

1e. Tennis Ball Duck

Supplies

- yellow tennis ball
- large yellow pom-pom
- orange fun foam
- yellow feathers
- googly eyes
- tacky glue
- scissors
- permanent marker

Directions

1. Cut webbed feet from the fun foam and glue them to the tennis ball.
2. Cut two rounded duck beaks from the fun foam and glue them to the pom-pom. Add “nostrils” to the top of the beak using the marker.
3. Glue the googly eyes to the pom-pom.
4. Glue the pom-pom head to the tennis ball.
5. Glue feathers on for the wings and a tail.

Find many more duck crafts online: <https://www.google.ca/#q=duck+crafts> (adapt to make them yellow!).

2. Bees

2a. Bee Hat Craft

Supplies

- black and yellow pipe cleaners
- black pom-pom
- googly eyes
- yellow tulle
- tacky glue
- skewer, straw or pencil

Directions

1. Cut black and yellow pipe cleaners in half. Take one half of each colour together and wind them tightly around a skewer or straw, then remove the skewer or straw and squish the pipe cleaners tightly together. This is the body of the bee.
2. Glue a black pom-pom onto one end of the body and glue googly eyes on.
3. Take a small piece of tulle, fan fold it, wrap a piece of pipe cleaner around it to create wings, and then attach it to the body by pushing the ends through the middle of the body and have the pipe cleaner stick out below the pom-pom to create the “stinger”.

2b. Bee Prepared Kit

Supplies

- black film canister (or prescription pill bottle or any similar container with a lid)
- yellow fun foam or felt
- yellow pom-pom
- googly eyes
- brown pipe cleaner
- jewelry pin back
- hot glue gun & tacky glue

Directions

1. Cut two thin strips of yellow fun foam (about ½" wide) long enough to wrap around the film canister - glue them in place using the glue gun.
2. Cut wings (one piece - shaped like a big heart) and use a hot glue gun to glue the wings onto the back of the film canister - at the location where the yellow strip ends meet. The wings should be positioned such that the bottom point of the heart is at the LID of the film canister.
3. Use a ball point pen to write "BEE" on one wing and "PREPARED" on the other wing - it is important to do this AFTER the wing piece has been attached, otherwise you may not see the words after gluing.

4. Use a hot glue gun to glue the pom-pom to the **BOTTOM** of the film canister - **NOT THE LID!** You are making this whole bee such that the canister will be upside down. This is done so that when you open & close the canister you are not disturbing the pom-pom head. You can do it the other way, if you want, but I think you'll find that the pom-pom will fall off or get damaged from repeated handling.
5. Use the tacky glue to attach the googly eyes.
6. Bend the pipe cleaner and bury the point of the bend into the pom-pom top. Use tacky glue to secure in place.
7. Hot glue the jewelry pin back to the back of the wings.
8. Fill with: contact information, whistle, Band-Aids, safety pin, individually packaged wet wipe.

2c. Glow Bee

Supplies

- yellow plastic Easter egg
- mini glow stick
- black electrical tape or clear tape and black permanent marker
- googly eyes
- yellow tissue paper or tulle
- tacky glue
- fishing line

Directions

1. The eggs usually have a hole at the end of each half where fishing line can be attached to hang the egg bee. Thread the fishing line through both holes to create a loop. Tie closed.
2. Activate the glow stick and put it into the yellow egg then tape the egg shut.
3. If you are using black electrical tape, create stripes using the tape. If you are using clear tape, create strips using the black marker.
4. Attach googly eyes.
5. Create wings from tissue paper or tulle and glue to the top of the bee.

The girls will love these in the evenings with the glow sticks activated!

Find more bee crafts online: <https://www.google.ca/#q=bee+crafts>.

2d. Queen, Drone, Worker Game

This is a bee game which helps the girls to understand that bees have different jobs in a hive. It is a variation of “Rock, Paper, Scissors” or “Wizards, Giants, Elves” (which can be found in the Green Appendix). You will need a large playing area for the girls to run. Each team has a safe zone at opposite ends of the playing area.

Directions

1. First teach the girls about the three types of bees:
 - Queen: She is the largest bee in the hive, and there is only one Queen bee. Her job is to lay eggs and the other bees in the hive tend to her every need. She has a stinger, which she can use over and over again. To represent the queen, put your hands over your head to form a crown.
 - Drone: They are larger than a worker bee, but smaller than a Queen bee. They have large eyes, but no stingers. They are male bees and their job is to fertilize eggs. To represent a drone, put your hands on your hips.
 - Worker: They are the smallest bees. They have stingers, but can only sting once and then they die. There are lots of worker bees in a hive, and they are all female. They have many jobs: cleaning the hive, removing dead bees from the hive, feeding and caring for baby larvae, taking care of the queen, collecting nectar from field bees, controlling the temperature of the hive, producing beeswax, guarding the hive, and, finally, becoming field bees and gathering nectar. To represent a worker, make a fist to show you are ready to work!
2. Divide the girls into two teams, then send the teams to their safe zones at opposite ends of the playing area.
3. Each team then quietly decides what type of bee they will be.
4. The teams line up facing each other in the centre of the playing area, with about 5 feet between them.
5. The Guider calls out “One...Two...Three...” then the girls make the pose for their team’s bee.
6. The “winning” bee team chases after the other team, trying to tag as many as possible, before they reach the safe zone at the end of the playing area.
 - Queens beat drones (as without the queen, the drone would not exist)
 - Drones beat workers (as without the drones, the workers would not be born)
 - Workers beat queens (as without the workers tending to the queen, she would not survive)
 - If both teams choose the same type of bee, it is a draw, and they must choose again.
7. Any tagged bee joins the other team.
8. Continue playing the game until just one team remains.

3. Daffodils

3a. Daffodil Craft

Supplies

- yellow cupcake liners (if you don't have yellow, colour white liners with watercolour paint or markers)
- mini cupcake liners (white or yellow)
- green pipe cleaner
- jumbo craft sticks (large popsicle sticks) – 2 per girl
- green masking tape
- glue

Directions

1. Dab a small amount of glue inside the larger cupcake liner, then place the smaller liner into the larger one
2. Glue the two craft sticks together to make a double-length stem. When the glue is dry, cover with green masking tape.
3. Glue the cupcake liners to the top of the stem.
4. Bend the pipe cleaner to form two loops for leaves. Tape the leaves to the stem with the green tape.
5. Optional: add small pom-poms, beads or a button to the centre of the flower.

Find more daffodil crafts online: <https://www.google.ca/#q=daffodil+craft>.

3b. “I Like the Flowers” Song

Once you have made your daffodil craft, sing this song. It is often sung in a round, with one part singing “I like the flowers” and the other part singing “Boom-ti-ar-a” then switching.

*I like the flowers,
I love the daffodils,
I like the mountains,
I love the rolling hills,
I like the fireside
When all the lights are low;
Boom-ti-ar-a, Boom-ti-ar-a, Boom-ti-ar-a, Boom-ti-ar-a.*

Hear the tune online: <http://guidingjewels.ca/resources/songs/574-song-i-like-the-flowers>

Source: *Celebrate With Song* published by Girl Guides of Canada-Guides du Canada.

Public Domain. May be reproduced.

4. Bananas

4a. Banana Olympics

From the Movin' and Groovin' Active Living Toolbox.

Supplies

- bananas

Directions

Divide the group into teams of 8-10 players and give each team a banana. Each team will complete a series of different relays using their banana. Here are some ideas for those relays:

1. Hold the banana under your armpit and hop on one leg down a field and back.
2. Place the banana between your knees and hop down a field and back.
3. Two teammates toss the banana back and forth down the field and back.
4. Place the banana on the ground and each teammate must roll across the banana.
5. The teammates line up in leapfrog formation and the first player hops over the other players while holding the banana and then tosses the banana to the next player in line to do the same.

Show the players all the relays that they'll have to complete for the Olympics. You may have to write them on a large white board so that all players will know what relay is next. The team that is finished first is the winner. Use your own ideas, add to the list or use only a few ideas. You can adjust this game to all types of players.

4b. Banana Snacks

Have a banana snack station:

- create breakfast banana splits with yogurt, cereal, raisins & strawberries
- create banana caterpillars with pretzels, banana slices and raisins for eyes
- make banana smoothies while teaching the girls about nutrition
- if you have cooking facilities, make banana boats by cutting open one side of a banana (without cutting through the peel on the other side), adding mini marshmallows and chocolate chips, wrapping in aluminum foil, then baking over a campfire, barbeque or in an oven at 300°F for about 5 minutes.

4c. The Banana Song

See and hear a sample version of this song online at <http://youtu.be/SOKU5tLU-j0>.

*Bananas Unite
Bananas Split
Peel banana; peel, peel banana
Bite banana; bite, bite banana
Chew banana; chew, chew banana
Swallow banana; swallow, swallow, banana
Digest banana! Digest, digest banana!
Go Bananas!! Go, Go Bananas!!*

5. Smiley Face

5a. Smiley Face Crafts

This symbol, traditionally yellow, is great for a “hippie” or “retro” theme. Some ideas are:

- make a paper plate smiley face
- smiley cookies
- smiley buttons
- paint a smiley face on a T-shirt or bag

5b. “Brownie Smile” Song

Sing this song to remember to smile after making a smiley craft! You could end it with a “Brownie,” “Sparky” or “Girl Guide” smile.

This song can be found on page 18 of the “*Sing a Song With Sparks & Brownies*” songbook, or search online for the lyrics and tune:

<https://www.google.ca/#q=brownie+smile+song>

6. Corn

6a. Cornstarch Putty

First explain to the girls that corn, a yellow food (which is a grain, not a vegetable!) is used to make several products, such as corn syrup and cornstarch. There are more than 4,200 uses for corn (see <https://www.google.ca/#q=4200+uses+corn>), many of which you will be surprised to learn about!

Supplies

- container to mix in (such as a paper cup)
- ¼ cup cornstarch per girl
- 1-2 tablespoons of water
- yellow food colouring

Directions

1. Put the cornstarch into the container.
2. Add a couple of drops of yellow food colouring to the water.
3. Slowly add the water to the cornstarch, mixing with your fingers, until all of the powder is wet. You want the mixture to be fairly thick, but fully mixed, so that it looks like a liquid when stirred slowly, but feels like a solid when tapped solidly with your finger.
4. The mixture should be able to drip slowly from your hand when lifted, but not splatter when hit. Adjust the amount of cornstarch or water until you have the right consistency.

Cornstarch putty is a Non-Newtonian fluid, which means it doesn’t act like other fluids; it

has properties of both a solid and a fluid. It flows like a liquid, but can break apart like a solid. It looks wet, but becomes dry when you rub it between your fingers.

Have fun playing with this gooey mixture!

6b. Corn Syrup Bubbles

Corn syrup bubbles are stronger than regular soap bubbles!

Supplies

- 2 cups of dish soap (Joy or Dawn are best – don't use "ultra" varieties)
- 6 cups of water (distilled water will make the best bubbles, but you can use tap water)
- $\frac{3}{4}$ cup of corn syrup
- large spoon to stir and container to mix in
- shallow container
- yellow pipe cleaners to make bubble wands

Directions

1. Slowly add the dish soap into the water – try to not form any bubbles as you stir.
2. Slowly add the corn syrup to the mixture, stirring until fully mixed.
3. For best results, make the bubble solution in advance and let it sit overnight. You can use it right away, however, if you want to make the solution with the girls.
4. Pour the bubble solution into a shallow container.
5. Have the girls make looped bubble wands using the pipe cleaners. Dip the loops into the solution, then blow the bubbles or spin around to form bubbles on their own.

6c. Corn Prints

Supply paint in two or three complimentary colors, corn on the cob and painting paper. Have the girls create prints rolling their corncobs in thin layers of paint and then over the paper.

6d. Corn Maze

If you have access to one, have the girls go through a corn maze as a station - lots of fun!

7. Pencils

7a. Backflip Pencil Game

Have the girls practice their hand work with this progressively challenging game.

Supplies

- 12 yellow pencils per pair of girls

Directions

1. Pair the girls up so they take turns attempting this challenge.
2. Balance two pencils laying together on the back of one hand.
3. Flip the pencils into the air, then catch them both together.
4. Add two more pencils and try again.
5. Keep adding pencils until the final challenge – 12 pencils at once!
6. If a girl misses and doesn't catch the pencils, play moves to the other player.

7b. Pencil and Paper Games

There are many pencil and paper games that the girls could play at a station, using yellow pencils, of course!

- Tic-Tac-Toe
- Hangman
- Sudoku
- Dots and Boxes

See <https://www.google.ca/#q=pencil+paper+games> for many more ideas.

7c. Pencil Holder

Make a pencil holder for those yellow pencils! Find an idea that suits your theme online: <https://www.google.ca/#q=pencil+holder+craft>

8. Rain Boots

8a. Welly Wanging

What's a welly, you ask? Welly is British slang for "Wellington," which is their term for rubber boots. And wanging? That means "throwing". So welly wanging means throwing a rubber boot! British Wellingtons are traditionally green, but in North America rain boots are traditionally yellow.

- compete to see who can throw a rain boot the farthest
- set up a course of hula hoops or buckets, and try to land your rain boot inside each one

8b. Rain Boot Planter

If you are able to collect older used boots, or purchase inexpensive yellow rain boots, have the girls plant flowers to create an interesting focal point for a garden.

9. Safety/Caution

Yellow is the colour of safety or caution, so have the girls act out scenarios where they need to be aware of their safety. Mark off the area with caution tape to accent the learning.

10. “Tie a Yellow Ribbon Round the Old Oak Tree” Song

Introduce the song and talk about going to war – perhaps in conjunction with Valentines for Vets (<http://www.veterans.gc.ca/eng/feature/valentine/>) or Remembrance Day (<http://www.veterans.gc.ca/eng/remembrance>).

Find the song online: <https://www.google.ca/#q=tie+a+yellow+ribbon+song>

11. Yellow Fish Road

Introduce the idea of environmental service and what the Yellow Fish Road (<http://www.yellowfishroad.org/>) project does.

12. Butter

12a. Make Butter

Make it a science experiment and turn cream into butter the old-fashioned way.

Supplies

- a jar with a tight-fitting lid (baby food jars work well)
- heavy cream
- a clean marble

Directions

1. Fill a jar about halfway with heavy cream. Add the marble and close the jar with a tightly sealed lid.
2. Shake, shake, shake! This can take 10 to 20 minutes, but keep shaking!
3. Listen for the marble in the cream – when you can’t hear it bouncing around anymore, you know that your cream is thickening and becoming butter.
4. When you shake the jar, the fat and protein molecules stick together. These molecules that are sticking together are butter! The leftover liquid is buttermilk. Make sure to remove the marble before you use the butter!

12b. Butter Cookies

After making your own butter, why not do some baking with it and make butter cookies? Use your favourite recipe, or try this one. This recipe makes about 3 dozen cookies.

Ingredients

- 1 cup of butter
- 1 cup of white sugar
- 1 egg
- 2 tsp vanilla extract
- 2 2/3 cups of all-purpose flour
- ¼ tsp salt

Directions

1. Preheat the oven to 400°F.
2. In a large bowl, cream together the butter and sugar until light and fluffy.
3. Add the egg and beat until well combined.
4. Stir in the vanilla.
5. In a separate bowl, mix together the flour and salt.
6. Stir the dry mixture into the wet mixture.
7. Roll the mixture into little balls, place on a baking sheet, then press down with a fork.
8. Optional: sprinkle some additional sugar on each cookie.
9. Bake for 8 to 10 minutes, or until lightly golden.

13. Yellow Submarine

Teach the girls a few lines of the Beatles' song and have fun with an underwater adventure by making a submarine.

Find a submarine craft idea online:

<https://www.google.ca/#q=yellow+submarine+craft>

**14. Rubber Chicken Games**

The only supply needed for the following games is a rubber chicken, available in the toy section of a pet store, or the pet section of your local store.

14a. Chuck the Chicken

Divide the girls into two teams.

1. Team A starts with the chicken. They form a line and pass the chicken from the back of the line up to the front as follows: through the legs of the second to last person in line, then over the head of the next person, through the legs of the next person... over, under, etc.
2. Team B starts by squishing their team up as close as possible. One team member then starts running laps around the rest of

their team. For each lap she completes, the team earns a point.

3. When the chicken arrives at the front of Team A's line, the person in front yells out "CHUCK THE CHICKEN" then throws, or "chucks", the chicken as far as possible. Now Team A squishes themselves close together, with one person on their team running laps around them, just like in step 2, earning a point for each lap completed.
4. When Team B hears "CHUCK THE CHICKEN" they all run over to the chicken, form a line, and pass the chicken from back to front – under the legs, over the head, under, over, etc. until it reaches the front of the line, and then they yell out "CHUCK THE CHICKEN" and repeat step 2.
5. The game repeats – with one team in a line and one team squished up with a runner lapping them – for as many rounds as you choose, ending with Team B chucking the chicken last. The team with the most points wins.

14b. Chicken Detective

All players stand shoulder-to-shoulder in a tight, inward-facing circle. One player is chosen to be a detective and stands in the middle of the circle.

1. The detective stands in the middle of the circle with her eyes closed.
2. Everyone in the circle "sings" the Chicken Dance song while passing the chicken around the circle, behind their backs.
3. The detective yells "STOP" and everyone stops singing and freezes in place.
4. The detective has three chances to guess who has the chicken. If she guesses correctly, she switches places with the person with the chicken, who becomes the new detective. If she is wrong, she remains as the detective for another round.
5. An added variation for older girls is to continue to quietly pass the chicken behind their backs while the detective is trying to figure out who has it.

14c. Rubber Chicken Blob Tag

1. Two girls are chosen to begin the blob. They each take a leg of the rubber chicken and form a small "blob".
2. The blob works as a team, while holding the chicken together, and runs to tag the remaining girls.
3. Anyone tagged becomes part of the blob, and joins hands with another blob member.
4. Continue until all the girls are part of the blob.

14d. Hacky Chicken

This game can be played individually or as a group.

1. In this game you use the rubber chicken just like a hacky sack – you must keep the chicken in the air and off the ground without using your hands. You can hit it, kick it, tap it, etc. with any body part except your hands.
2. Count how many times you touch the chicken before it hits the ground.
3. If the chicken hits a hand or the ground, start over.

14e. Duck-Duck-Chicken

All the girls sit in a circle. The “It” girl has the chicken and is outside the circle.

1. The girl on the outside of the circle (“it”) walks around the circle gently tapping each girl on the head with the chicken while saying “duck, duck...”
2. At some point, “it” drops the rubber chicken on the lap of one player in the circle, and calls out “chicken”.
3. Just like in “Duck, duck, goose” both girls must run around the circle to try and claim the empty spot. However, the girl with the chicken can try to tag “it” with the rubber chicken (she could even throw it at her!) before “it” sits down. If she is able to touch the rubber chicken to “it” then she may reclaim her spot, otherwise, the first girl back to the spot (without the chicken!) wins and sits down.
4. Play continues as above.

PROGRAM CONNECTIONS

Wondering how these activities fit into the rest of your unit’s program? Following are some program connections for Sparks and Brownies. This is not a comprehensive list – feel free to apply your activities to other parts of the program as you see fit. Remember that each activity you complete can accomplish multiple parts of the program.

| Activity | Spark Keepers | Brownie Keys / Interest Badges |
|------------------------|---|---|
| Rubber Duck Challenges | Going Outside: <ul style="list-style-type: none"> • Outside Active Games Being Healthy: <ul style="list-style-type: none"> • Active Games | Key to Active Living: <ol style="list-style-type: none"> 2.
